Operating Temperature Range:

-55.0/+125.0 degrees celsius

Storage Temperature Range:

-65.0/+150.0 degrees celsius

Inclosure Material:

Glass and metal

Inclosure Configuration:

Can

Design Function And Quantity:

1 regulator, voltage

Terminal Surface Treatment:

Solder

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
