End Application:

Nightbird f.L.I.R.

Inclosure Material:

Ceramic

Inclosure Configuration:

Dual-in-line

Output Logic Form:

Complementary-metal oxide-semiconductor logic

Design Function And Quantity:

8 converter, frequency to dc and 8 multiplier

Terminal Type And Quantity:

28 flat leads

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
