Operating Temperature Range:

+0.0/+70.0 degrees celsius

End Application:

6625-01-426-4440

Inclosure Material:

Plastic

Inclosure Configuration:

Leaded chip carrier

Output Logic Form:

Emitter-coupled logic

Design Function And Quantity:

1 receiver, line differential

Terminal Type And Quantity:

28 j-hook

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
