Operating Temperature Range:

+0.0/+70.0 degrees celsius

End Application:

Ci-13

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Microcircuit, quad low-bias voltage feedback op amp

Special Features:

Similar to 67268/8102306cx

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
