Operating Temperature Range:

+0.0/+70.0 degrees celsius

Storage Temperature Range:

-65.0/+125.0 degrees celsius

End Application:

6130-01-441-1746 e/i fscm 06179

Features Provided:

Low current and low noise and low power

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

1 regulator, voltage

Terminal Type And Quantity:

8 printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
