Maximum Power Dissipation Rating:

118.0 milliwatts

Operating Temperature Range:

-25.0/+85.0 degrees celsius

Storage Temperature Range:

-55.0/+150.0 degrees celsius

End Application:

Esm door assembly cage 81995

Features Provided:

High speed and low power

Design Function And Quantity:

1 comparator, voltage

Product Name:

Ultrafast comparator

Terminal Type And Quantity:

16 printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
