

View Online at <https://aerobasegroup.com/nsn/5962-01-463-4006>

Operating Temperature Range:

-40.0/+85.0 degrees celsius

End Application:

6625-01-450-7534.

Features Provided:

Electrostatic sensitive

Output Logic Form:

Emitter-coupled logic

Design Function And Quantity:

1 oscillator, voltage controlled

Product Name:

Voltage control oscillator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
