Body Length:

1.310 inches

Body Width:

0.800 inches

Body Height:

0.190 inches

End Application:

An/aar

Features Provided:

Electrostatic sensitive

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

1 converter, analog to digital

Terminal Surface Treatment:

Gold

Product Name:

12 bit 2mhz low power, sampling a/d converter

Terminal Type And Quantity:

24 printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
