Operating Temperature Range:

-55.0/+125.0 degrees celsius

End Application:

C-17a acft, e/i fsc 89954

Memory Device Type:

Eprom

Special Features:

Microcircuit; memory, digital, cmos, uv erasable programmable logic device monolithic silicon; device type 32-macrocell ipld; d-15 dual in line package

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
