End Application:

Missile system, nato sea sparrow

Features Provided:

Electrostatic sensitive

Design Function And Quantity:

1 gate, array

Product Name:

Microcircuit, digital, fpga

Special Features:

This is an altered item/next higher assembly is 6022964/ made from p/n g688207-1/ burn file p/n is ep6022974-102

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A458a0
