Body Length:

20.000 millimeters

Body Width:

9.000 millimeters

Body Height:

3.000 millimeters

Output Logic Form:

Complementary-metal oxide-semiconductor logic

Design Function And Quantity:

1 memory, static ram

Product Name:

Microcircuit, digital

Special Features:

Word and bit organization: 132kx8; 32-pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
