| Operating Tempurature Range:                         |
|--|
| -55.0/+125.0 degrees celsius                         |
| End Application:                                     |
| Aircraft, f-16                                       |
| Features Provided:                                   |
| Electrostatic sensitive                              |
| Inclosure Configuration:                             |
| Can  |
| Design Function And Quantity:                        |
| 1 amplifier, operational, high speed                 |
| Product Name:  |
| High speed, wideband operational amplifier           |
| Voltage Rating And Type Per Characteristic:          |
| -18.0 volts power source and 18.0 volts power source |
| Special Features:                                    |
| P/n msk3554b is mil-prf-38534 qualified              |
| Terminal Type And Quantity:                          |
| 8 pin  |
| Shelf Life:  |
| N/a  |
| Unit Of Measure:                                     |
|  |
| Demilitarization:                                    |
| Yes - demil/mli                                      |
| Fiig:  |
| A458a0   |
| Mil-std (military Standard):                         |
| Mil-prf-38534 spec.                                  |
|  |
