Operating Temperature Range:

-40.0/+85.0 degrees celsius

End Application:

C-17a aircraft

Features Provided:

Hermetically sealed and electrostatic sensitive and monolithic

Output Logic Form:

Hi-performance mos

Design Function And Quantity:

1 microprocessor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
