Storage Temperature Range:

-65.0/+150.0 degrees celsius

End Application:

Aircraft, eagle f-15

Features Provided:

Electrostatic sensitive

Product Name:

Microcircuit, digital, memory, 16k, programmed, electrically erasable, monolithic silicon

Memory Device Type:

Programmed

Special Features:

Altered item; made from cage 73030 p/n 90251

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
