End Application:

F-16c/d avionics test station 4920014959100

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

1 amplifier, operational, power

Terminal Type And Quantity:

8 pin

Specification Data:

Manufacturerspeccontrol6012325 manufacturers specification control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
