Storage Temperature Range:

-65.0/+125.0 degrees celsius

End Application:

F-15

Inclosure Material:

Ceramic

Inclosure Configuration:

Flat pack

Output Logic Form:

Transistor-transistor logic

Design Function And Quantity:

1 counter, binary 4 bit async

Terminal Surface Treatment:

Solder

Terminal Type And Quantity:

16 printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
