**Storage Temperature Range:**

-65.0/+125.0 degrees celsius

**End Application:**

F-15

**Inclosure Material:**

Ceramic

**Inclosure Configuration:**

Flat pack

**Output Logic Form:**

Transistor-transistor logic

**Design Function And Quantity:**

1 counter, binary 4 bit async

**Terminal Surface Treatment:**

Solder

**Terminal Type And Quantity:**

16 printed circuit

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A458a0
