Body Outside Diameter:

0.145 inches

Body Height:

0.100 inches

Maximum Power Dissipation Rating:

1.5 watts

Storage Temperature Range:

-65.0/+150.0 degrees celsius

End Application:

GENE-RA-LPU-RPOS

Features Provided:

Bipolar and monolithic

Inclosure Material:

Plastic

Inclosure Configuration:

Beam chip

Terminal Surface Treatment:

Solder

Product Name:

Cascadable silicon bipolar mmic amplifier

Terminal Type And Quantity:

4 beam lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A458a0
