**Operating Temperature Range:**

-25.0/+85.0 degrees celsius

**Storage Temperature Range:**

-65.0/+150.0 degrees celsius

**Inclosure Material:**

Silicon

**Inclosure Configuration:**

Flat pack

**Product Name:**

Microcircuit, linear, programmable primary side pulse width modulator, monolithic silicon

**Special Features:**

10 pins; flat pack; 500khz operation; 8.4 volt under voltage lockout

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A458a0
