**Operating Temperature Range:**

+0.0/+70.0 degrees celsius

**Storage Temperature Range:**

-65.0/+150.0 degrees celsius

**Product Name:**

Adjustable precision shunt regulator

**Special Features:**

30 ppm/c equivalent full range temperature coefficient; 0.2 ohms typical output impedance; 1 ma to 100ma sink current capability; low output noise

**Purchase Description Identification:**

01295tl431acd

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A458a0
