Operating Temperature Range:

+0.0/+70.0 degrees celsius

Storage Temperature Range:

-65.0/+150.0 degrees celsius

Product Name:

Adjustable precision shunt regulator

Special Features:

30 ppm/c equivalent full range temperature coefficient; 0.2 ohms typical output impedance; 1 ma to 100ma sink current capability; low output noise

Purchase Description Identification:

01295tl431acd

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
