Operating Temperature Range:

-40.0/+80.0 degrees celsius

End Application:

C-17a aircraft

Features Provided:

Electrostatic sensitive

Inclosure Material:

Plastic

Inclosure Configuration:

Leaded chip carrier

Criticality Code Justification:

Cbbl

Product Name:

Programmed cmos epld

Memory Device Type:

Pal

Terminal Type And Quantity:

44 j-hook

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
