End Application:

Fwd fuselag f-15 aircraft

Features Provided:

Electrostatic sensitive and programmed

Inclosure Configuration:

Dual-in-line

Output Logic Form:

Transistor-transistor logic

Product Name:

Integrated circuit read memory

Memory Device Type:

Prom

Supplementary Features:

Make from pn 4031970-400 cage 01787 program with truth table 4009946-400

Terminal Type And Quantity:

16 printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
