End Application:

Radar 3d, d band, long range

Output Logic Form:

Transistor-transistor logic

Design Function And Quantity:

3 array, logic

Product Name:

Pal 20x10a series

Special Features:

20 array inputs; xor registered output type; 10 outputs; 20 ns tpd speed; 0 to 75 degrees centigrade operating conditions; 24 pin, 300 mil, plastic skinnydip

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
