Product Name:

Microcircuit, linear, quad high speed differential line driver, monolithic silicon

Special Features:

Device type is quad, high speed, differential line driver; device class is vendor self-certified to the requirements for mil-std-883 compliant, non-jan class level b microcircuit in accordance with mil-prf 38535, appendix; case outline has 16 terminals, package style is dual-in-line

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0

Mil-std (military Standard):

Mil-std-883 spec.
