Product Name:

Dual-port static ram

Special Features:

True dual-ported memory cells which allow simultaneous access of the same memory location, 4/8/k x 18 organization, 0.35-micron cmos for optimum speed/power, high-speed access: 20 & 25, low operating power, fully asynchronous operation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
