**End Application:**

B-52 mustan (test set)

**Inclosure Configuration:**

Flat pack

**Product Name:**

Microcircuit, memory

**Memory Device Type:**

Programmable

**Special Features:**

Capaci type 72000 typical gates, 108000 system gates; max user i/os 360; 3 global clocks; 4 quadrant clocks; logic modules 6036, combination cells 4024, dedicated flip-flops 2012, maximum flip-flops 4024

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A458a0
