End Application:

B-52 mustan (test set)

Inclosure Configuration:

Flat pack

Product Name:

Microcircuit, memory

Memory Device Type:

Programmable

Special Features:

Capaci type 72000 typical gates, 108000 system gates; max user i/os 360; 3 global clocks; 4 quadrant clocks; logic modules 6036, combination cells 4024, dedicated flip-flops 2012, maximum flip-flops 4024

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
