End Application:
Microcircuit. Linear
Product Name:
Nbb-310 cascadable broadband gaas mmic amplifier dc to 12 ghz
Special Features:
Reliaible, low-cost design; 13db gain; single power supply operation;
Supplementary Features:
Narrow and broadband commerical and military radio designs; linear and saturated amplifiers; gain storage or driver amplifiers for mw radio
optical designs (ptp/pmp/lmds/unii/vsat/wlan/cellular/dwdm)
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
