End Application:
Microcircuit, linear
Product Name:
Nbb-310 cascadable broadband gaas mmic amplifier dc to 12 ghz
Special Features:
Reliable, low -cost hbt design; 13 db gain; single power supply operation
Supplementary Features:
Narrow and broadband commercial and military radio designs; linear and saturated amplifiers; gain stage or driver amplifiers for mw radio
optical designs (ptp/pmp/lmds/unii/vsat/wlan/cellular/dwdm)
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
