End Application:

Micocircuit, memory

Product Name:

Atp 865

Special Features:

High performance ide controller for pci bus, aiming to suite file sever class or raid application and meets the ata-6 specification and ide pio mode, multitword dma and ultra dma mode, up to 13 mb/s rate

Supplementary Features:

Conforms to the pci-32 bit bus master transfer capability including pci enhanced data commandsm (133 mb/s) , and provides the scatter/gather to reduce intrrupet handle and improve performance; also provides the pci power management capability meet the mother board add-in card design

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
