End Application:

Microcircuit, memory

Product Name:

S29gl-n mirrorbit flash family

Special Features:

Each device is only required a single 3.0 volt power supply for both read and write functions; devices are entirely command set compatible with the jedec single-power supply flash standard;

Supplementary Features:

Mirrorbit flash technology combines years of flash memory manufacturing to produce the highest levels of quality, reliability and cost effectiveness; the device electrically erases all bits within a sector simultaneously via hot hole assisted erase. The data is programmed using hot electron injection

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
