**End Application:**

Microcircuit, memory

**Product Name:**

S29gl-n mirrorbit flash family

**Special Features:**

Each device is only required a single 3.0 volt power supply for both read and write functions; devices are entirely command set compatible with the jedec single-power supply flash standard;

**Supplementary Features:**

Mirrorbit flash technology combines years of flash memory manufacturing to produce the highest levels of quality, reliability and cost effectiveness; the device electrically erases all bits within a sector simultaneously via hot hole assisted erase. The data is programmed using hot electron injection

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A458a0
