End Application:

Microcircuit, linear

Product Name:

Lp2951- series of adjustable micropower voltage regulators

Special Features:

5v, 3v, and 3.3v versions available; high accuracy output voltage; guaranteed 100ma output current; extremely tight load and line regulation; low dropout voltage; extremely low quiescent current; very low temperature coefficient; use as regulator or refernece; needs capacitance for stability; current and thermal limiting; stable with low-esr output capacitors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A458a0
