End Application:

Microcircuit, linear

Product Name:

Lm2937 500ma dropout regulator

Special Features:

Fully specified for operation over -40 degrees celcius to 125 degrees celcius; output current in excess of 500 ma; output trimmed for 5% tolerance under all operating conditions; typical dropout voltage of 0.5v at all full rated load current; internal short circuit and thermal overload protection; reverse battery protection; 60v input transient protection mirror image insertion protection

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A458a0
