End Application:

Microcircuit, linear

Product Name:

Lp3963/lp3966 3a fast ultra low dropout linear regulators

Special Features:

Ultra low dropout voltage; low ground pin current; load regulation of 0.06%; guaranteed output current of 3a dc; available in to-263 and to-220 packages; error flag indicates output status; output capacitor requirements; overtemperature/ overcurrent protection; -40 to 125 degrees celcius junction temperature range

Supplementary Features:

Microprocessor power supplies; gtl, gtl+, btl, and sstl bus terminators; power supplies for dsps; scsi terminator; post regulators; high efficiency linear regulators; battery chargers; other battery powered applications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
