Product Name:

100kpa on-chip temperature compensated and calibrated silicon pressure sensors

Special Features:

Temperature compensated over 0 degrees c to +85 degrees c; unique silicon shear stress strain gauge; easy to use tape and reel; ratiometric to supply voltage; gauge ported and non ported options

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
