Product Name:

Micropower voltage regulators

Special Features:

5v, 3v, and 3.3v versions available; high accuracy output voltage; guaranteed 100ma output current; extremely low quiescent current; low dropout voltage; extremely tight load and line regulation; very low temperature coefficient; use as regulator or reference; needs capacitance for stability; current and thermal limiting; stable with low-esr output capacitors

Supplementary Features:

Error flag warns of output dropout; logic-controlled electronic shutdown; output programmable from 1.24 to 29v

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
