| The Chimic at the polytacious acquisition was 2 of 500 500 to |
|--|
| Body Width: |
| 3.90 millimeters |
| Operating Tempurature Range: |
| -40.0/+125.0 degrees celsius |
| Product Name: |
| Temperature monitor for microprocessor systems |
| Special Features: |
| Monitors local and remote temperature |
| Special Test Features: |
| No calibration required, programmable overtemperature / undertemperature alarm, 5.5v tolerant, smbus 2-wire serial interface up to 100 |
| khz |
| Supplementary Features: |
| Plastic shrink small outline package, 16 leads, body width 3.9mm, lead pitch 0.635mm |
| Shelf Life: |
| N/a |
| Unit Of Measure: |
| |
| Demilitarization: |
| Yes - demil/mli |
