Storage Temperature Range:

-65.0/+150.0 degrees celsius

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

1 switch, single pole double throw

Current Rating Per Characteristic:

12.00 microamperes input

Terminal Type And Quantity:

8 gullwing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
