Overall Length:

0.565 inches

Overall Width:

0.400 inches

Operating Temperature Range:

-40.0/+125.0 degrees celsius

Supplementary Features:

Low dropout positive voltage regulator with a dropout of 1.5v at 3a of load current; storage temp: -65 to +125 degrees c; maximum input to output voltage differential: 25v

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
