**Overall Length:**

0.775 inches

**Overall Height:**

0.325 inches

**Overall Width:**

0.260 inches

**Inclosure Material:**

Plastic

**Inclosure Configuration:**

Dual-in-line

**Product Name:**

Dual j- not-k positive-edge-triggered flip-flop

**Special Features:**

Inputs are ttl-voltage compatible; speed of bipolar f, as, and s; balanced propagation delays; +/-24 milliamp output drive current, fanout to 15 f devices; scr-latchup-resistan cmos process and circuit design; exceeds 2-kv esd protection

**Terminal Type And Quantity:**

16 pin

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A458a0
