Maximum Power Dissipation Rating:

360.0 milliwatts

Operating Temperature Range:

-65.0/+135.0 degrees celsius

Storage Temperature Range:

-65.0/+150.0 degrees celsius

Product Name:

Enhanced configuration devices 100-pin pqfp

Special Features:

Supply voltage: -0.5 min to 4.6 maximum volts, dc input voltage: -0.5 min to 3.6 maximum volts, dc output current, per pin: -25 min to 25 maximum mamps.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
