Product Name:

Dc-dc converter module

Special Features:

C/o dc input range, isolated output input surge withstand; dc output programmable output; regulation efficiency, operating temp; power density up to 90w per cubic inch; heigh above board, low noise zcs/zvs architecture; ro hs compliant (with f or g pin option).

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A458a0
