**Product Name:**

Dc-dc converter module

**Special Features:**

C/o dc input range, isolated output input surge withstand; dc output programmable output; regulation efficiency, operating temp; power density up to 90w per cubic inch; heigh above board, low noise zcs/zvs architecture; ro hs compliant (with f or g pin option).

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A458a0
