Product Name:

Peregrine semiconductor

Special Features:

Linearity, 6-bit rf digital step attenuator "dsa" covering at 31.5 db attenuation range in 0.5 db steps. Very low insertion loss and low power consumption., positive cmos control logic, flexible parallel and serial programming interfaces

Supplementary Features:

Switching frequency has a 25khz switching rate, description pe4302g-20mlp 4x4mm-75a, package green 20-lead 4x4mm qfn, shipping method 75 units/tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
