Overall Length:

1.391 inches

Overall Height:

0.570 inches

Overall Width:

1.062 inches

End Application:

Loran equipment airborne

Component Type And Quantity:

2 capacitor

Special Features:

Major components: toroid 1; mounting method and configuration: screws; three 0.088 inch diameter holes irregularly spaced

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
