| Overall Length:                       |
|---------------------------------------|
| 2.620 inches                          |
| Overall Height:                       |
| 0.290 inches                          |
| Overall Width:                        |
| 1.950 inches                          |
| Environmental Protection:             |
| Salt spray resistant and vibration    |
| Operating Tempurature Range:          |
| +0.0/+60.0 degrees celsius            |
| Storage Tempurature Range:            |
| -62.0/+125.0 degrees celsius          |
| Average Life Measurement:             |
| Hours                                 |
| Basic Shape Style:                    |
| Rectangular or square                 |
| Inclosure Type:                       |
| Encased                               |
| Operating Control Method:             |
| Automatic                             |
| Installation Design:                  |
| Module                                |
| Control Type:                         |
| Remote                                |
| Circuit Construction Type:            |
| Solid state                           |
| Signal Data Type Per Channel:         |
| Operating channel digital             |
| Connection Type And Location:         |
| Connector, plug bottom                |
| Connection Contact Type And Quantity: |
| 1 connector, plug external            |
| Shelf Life:                           |
| N/a                                   |
| Unit Of Measure:                      |
|                                       |
| Demilitarization:                     |
| Yes - demil/mli                       |
| Fiig:                                 |
| A32200                                |
|                                       |
