Overall Length:

3.450 inches

Overall Height:

2.935 inches

Overall Width:

3.000 inches

Basic Shape Style:

Rectangular or square

Frequency Per Channel:

4.330 gigahertz operating channel

Average Power Rating Per Channel:

5.0 milliwatts output

External Dc Operating Voltage In Volts:

-20.0 single voltage

Fsc Application Data:

Oscillator, radio frequency, radio, except navigation, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
