Overall Length:

2.150 inches

Overall Height:

0.560 inches

Overall Width:

2.125 inches

End Application:

Interrogator set, navigational, airborne

Component Type And Quantity:

6 capacitor and 10 crystal and 8 diode and 6 inductor and 1 printed wiring board and 10 resistor

Special Features:

Mounting method and configuration: screw, six 0.128 inch diameter mounting holes irregularly spaced

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
